My SQL Project: Second Hand Car Dealer

1) **Read Cars data**

2) **Total Cars: To get a count of total records**

3) **The manager asked the employee How many cars will be available in 2023?**

4) **The manager asked the employee How many cars is available in 2020,2021,2022**

5) **Clint asked me to print the total of all cars by year. I don't see all the details.**

6) **Clint asked to car dealer agent How many diesel cars will there be in 2020?**

My SQL Project: Second Hand Car Dealer

- Clint requested a car dealer agent How many petrol cars will there be in 2020?

- The manager told the employee to give a print All the fuel cars (petrol, diesel, and CNG) come by all year.

- Manager said there were more than 100 cars in a given year, which year had more than 100 cars?

- The manager said to the employee All cars count details between 2015 and 2023; we need a complete list.

- The manager said to the employee All cars details between 2015 to 2023 we need complete list
